

Since its inception in 1998, the **Albany Fund for Education (AFE)** has brought forward new ideas, approaches and funding to support the students of the Albany City School District. AFE enhances opportunities for students to learn, grow and succeed through building community partnerships, fundraising and investing in innovative and effective programs that build equity and strengthen the educational infrastructure of Albany City Schools.

Making a Difference in Albany City Schools by:

- Opening the virtual school doors to students by providing more than 600 computers and 500 hotspots during the COVID pandemic, allowing families with multiple online learners to have all their students attending school!
- Being a critical partner in Albany’s “Feed and Read” Weekend Backpack Food Program, providing 590 students with weekly deliveries of food and a new book each Friday - feeding the mind as well as the body! AFE also provides summer backpacks for needy families.
- Repairing 75 donated musical instruments during 2021 for a total of more than 425 instruments provided for student use.
- Partnering with educators and community organizations to offer grants to inspire students and bring innovative learning to our schools. \$28,000 in annual grants fund educator-driven projects including field trips, author visits, STEM nights, health/wellness projects - and our new classroom resource grants.
- Encouraging students to become protectors of the environment through Arbor Day tree planting activities, Project Learning Tree curriculum and gardening clubs.
- Awarding \$15,000 in scholarships to Albany High School students annually.

We know that the COVID-19 crisis has made every dollar spent even more precious, and are deeply appreciative of your generosity. The Albany Fund for Education is a 501(c)3 non-profit and all donations are tax-deductible to the fullest extent of the law.
